Proteggere contenuti sensibili con
Microsoft Endpoint DLP

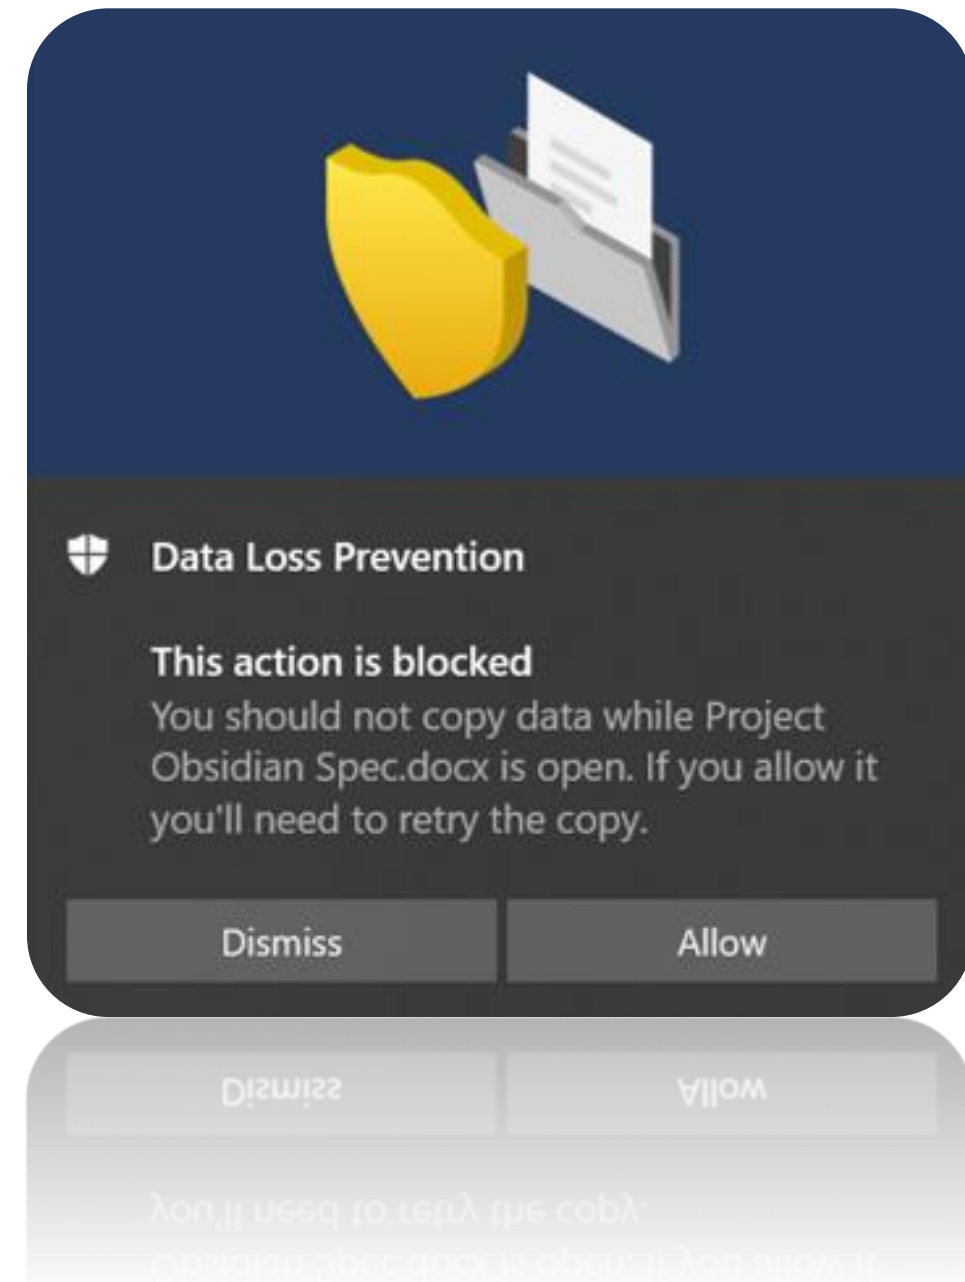

Microsoft Information Protection Framework

Powered by an intelligent platform

Unified approach to automatic data classification, policy management, analytics and APIs

Endpoint data loss prevention (Endpoint DLP) extends the activity monitoring and protection capabilities of DLP to sensitive items that are on Windows 10 devices.

^ Audit or restrict activities on Windows devices

When the activities below are detected on Windows devices for supported files containing sensitive info that matches this policy's conditions, you can choose to only audit the activity, block it entirely, or block it with an override to override the restriction. [Learn more](#)
